

Who We Are

-- The Asian American Psychological Association Education and Training Committee (ETC) was established as a branch of the AAPA Executive Committee. It is comprised of a group of professionals and graduate students dedicated to improving education and training on issues related to AAPI mental health.

-- As a group, we work together to help support the AAPI community's educational needs.

-- We seek to reduce mental health stigma and empower AAPI communities by promoting greater awareness of social, cultural, political, and oppressive forces that have historically impacted Asian American and Pacific Islander mental health and access to education.

-- We aim to support AAPI pedagogy via culturally informed and empirically supported educational materials (e.g., research, webinars, workshops, fact sheets specific to AAPI mental health).

-- We encourage educators to engage with AAPI issues in academic, clinical, and community settings; provide educational resources and training support for AAPIs in psychology; advocate for AAPIs through outreach to the larger psychological community.

-- As a member of this group you will serve as consultants to community members that may need resources or help developing webinars, uphold AAPA values and AAPA ETC's mission in communications with public/community members.

CURRENT MEMBERS

KARI TABAG, LCSW-R (CO-CHAIR)

Adelphi University, Social Work Doctoral Candidate

Counselor Faculty

Education &
Training
Committee

AAPA ETC members are from all levels (i.e. under/graduate students, psychologist/mental health providers) interested in education, dissemination, and pedagogy.

We represent wider diversity within AAPA, and invite members from different divisions, levels of clinical/research practice, and education.

Give back. Get involved. Help make a difference in AAPI communities.

Please contact Gabriel Corpus (ghcorpus@gmail.com)

& Kari Tabag (ktabag@adelphi.edu)

ETC BOARD - OPEN POSITIONS

Our current board member positions include the following

Co-Chairs: Direct and manage overall AAPA ETC projects and coordinate bimonthly meetings.

Secretary (1 Open)

Public Relations/Communications (1 Open)

Outreach Coordinators (1 Open)

Division Liaisons (2 Open)

Executive Committee Liaison (*appointed)

DUTIES & RESPONSIBILITIES

Responsibilities include:

- * Attending bimonthly meetings
- * Contribute to ongoing projects; respond to requests for resources; connect requestors to AAPA members
- * Help maintain our growing online resource archive
- * Project Chair Leads (members may also choose to lead certain projects, managing work goals, and updating project progress to the co-chairs)

CURRENT PROJECTS

Interviews with Community Members

AAPA ETC, through the executive committee, meets with various community entities who seek to learn about AAPI mental health issues. Current collaboration include articles/webinars developed with The Mighty and the JED Foundation.

Archival Project

Ongoing effort to gather and highlight specific AAPI mental health resources ranging from peer reviewed articles to online websites or video related to AAPI issues. Members help gather and manage AAPA ETC Archive.
